Vaccine Scam: People are being warned about a fake NHS text which is demanding bank details from people waiting for a coronavirus vaccine. Liverpool City Council said in a "scam alert" that the message had been "circulating", advising people they were eligible for a COVID-19 jab. The National Police Chiefs' Council (NPCC) also tweeted a warning, reminding those waiting to be immunised that "**vaccinations are free**". "The NHS will never arrive unannounced at your home to administer the vaccine. They will never ask for bank/card details, PIN or banking passwords." The NPCC is asking people to share the alert with "friends and family who may be at risk or who are expecting to receive a vaccine". If you get such a text I recommend you contact your GP, explained you have received the text message and ask if they sent it.
